

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper that automatically sets off to dump as soon as bumper release touches the side of a dumpster. When unloading is finished, the hopper goes back to an upright and locked position. This particular piece of equipment is even obtainable along with a cable which allows operation from the seat of the lift truck so as to have the alternative of manually unloading the hopper. There is a locking chain provided to lock the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish so as to maintain durability.
