

Rockwell Part

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working within an environment that encourages the highest integrity with empowered teamwork, along with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their employees to work in. Furthermore, they have implemented several programs in the company to be able to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever comments or questions, as they are glad to share and promote this policy with a greater understanding of their efforts. They are really dedicated to improving and preserving the natural environment. AxleTech has an EHS program that not just protects the natural world but which even actively protects their employees and neighbors also.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, which may comprise anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specially designs axles in order to meet certain application demands. They have more than 1000 different axle specs within their current offering. With more than 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in several military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have added details that could be found in the "ISAS" product selection.
