

TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, lift trucks play an important role for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread worldwide.

In 1949, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the company is simply referred to as TCM Corporation. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM began constructing lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With over 50 years of accumulated technology and expertise, TCM has been proudly manufacturing many models of industrial trucks, making their models known all over the world. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling business.
